Leadership & Innovation in Asian Public Healthcare

John E.L. Wong, MBBS, FAMS, FRCP, FACP
Isabel Chan Professor in Medical Sciences
Chief Executive, National University Health System
Senior Vice President (Health Affairs), National University of Singapore

September 23, 2016

How should Public Healthcare Systems prepare for an aging population with increasing demand & expectations?

Enable an integrated optimal “end to end” system covering:

- Prevention
- Screening
- Primary Care
- Acute Care
- Rehabilitation
- Home Care
- Intermediate and Long Term Care Facilities
- Hospice

How should Public Healthcare Systems prepare for an aging population with increasing demand & expectations?

Ensure effective:

- **Governance and Partnerships**
- **Quality / Cost Analysis (“Value Driven Outcomes”)**
- **Sustainable Financing**
- **Sustainable Manpower**
- **Informatics and Analysis**
- **Learning Feedback Loops**
- **Research**
- **Integration with Social, Housing, Transport, and other sectors**
- **Public Engagement and Alignment**

Where is the greatest need for leadership and innovation in Asian public healthcare?

- **Governance and Partnerships**
- **Quality / Cost Analysis (“Value Driven Outcomes”)**
- **Sustainable Financing**
- **Sustainable Manpower**
- **Informatics and Analysis**
- **Learning Feedback Loops**
- **Research**
- **Integration with Social, Housing, Transport, and other sectors**
- **Public Engagement and Alignment**

What are the other critical uncertainties confronting Asian healthcare?

- **Infectious Diseases – Pandemics and Multi-Drug Resistance**
- **Climate Change and Natural Disasters**
- **Weak Economic Growth**
- **Income Disparity and Social Determinants of Disease**
- **Cyber-Security**
- **War**

Shaping Medicine for the Future

Thank you!
